## OPEN AIR CLASS OF YOUNG LADIES UNIQUE

Twenty Girls to Be Kept on a Strict Outdoors Schedule During Eleven Year Course of Bryn Mawr.

The famous Bryn Mawr school, which has been in existence for more than twenty years, will be started on an eleven-year course of physical and mental training at Bryn Mawr college next month on what is planned to be the latest and most advanced theory of education, according to plans made public today.

The class will attend school in the open air, with only glass windows to shield them from weather. The course for the first seven years, the elementary part of the training, will include instruction in intercollegiate dancing, gymnastics and athletic games, including basketball.

Lunches will be served in the open air school and a half hour each afternoon will be given to sleep. From the time the class enters next fall until the seventh year of elementary training is completed and the girls are ready for the four years' college course, the pupils of the school will study, eat, sleep and play in the open air from 9 o'clock in the morning until 9 o'clock in the afternoon.

The school was made possible by a legacy left in 1910 by Phoebe Anna Thomas of New York and it has been named for her.

## The Markets

Wall Street

(By Leased Wire to Evening Herald.)

New York, Aug. 14.—Market sentiment underwent a change today, although the reversal did not affect trading issues more than moderately.

Increased attention was given to general trade conditions, particularly the steel and iron industry. Continued damage to crops, especially corn, also excited renewed alarm. London's lower level was followed by declines here, one point losses being made by Steel, American Northern Pacific, Missouri Pacific and Chesapeake and Ohio. Wabash issues declined 3 to 4 points on rumors of another hitch in the reorganization. Among specialties Mackay rose almost 5 points and Pump preferred 4.

A feature of the irregular bond market was the sale of Mexican Railway 4 1/2 at 85, against 84 some months ago.

More ability was shown in the movement of prices after midday and leading rose vigorously, selling 1 1/2 above the lowest. Several other leaders also ranged above yesterday's closing, but the general movement was sluggish.

Westinghouse and General Motors common and preferred scored smart gains in the early afternoon, but the leaders reacted so suddenly as their had advanced and Canadian and Union Pacific soon lost their advantage of the previous hour and Steel fell back to its low point of the morning.

Closing prices on the more important stocks were as follows:

Amalgamated, 74.

Sugar, 109 bid.
